Women's Bible Study

Revelation is the book that illustrates the second advent of Christ and what occurs triumphantly for Christianity and the church. The literature in this book is apocalyptic in nature meaning that it refers to the end times or end of times. The church and particularly the seven churches of Asia Minor were being severely persecuted by the Romans on every

level, yet Revelation is filled with assurance, hope and warning to the church then as well as now. Please come and join us for this very educational and informative study in the (chapel) at 1930 every Thursday evening. [from Chapel Superintendent]
